Art Unit: 1644

1. The rejection of claims 25-30,32-35 under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement for the reasons elaborated in paragraph 6 of the Office Action mailed 9/20/05 is withdrawn in view of the cancellation of said claims.

2. Claims 9,16,31 are allowed.

3. This application is in condition for allowance except for the following formal matters.

A) The abstract of the disclosure is objected to because it does not disclose the claimed invention (aka the composition of claim 9). Correction is required. See MPEP § 608.01(b).

B) The amendment to the specification of 1/12/2000 listing the SEQ. ID. numbers for the disclosed sequences in the specification was not entered due to the number of changes required (see 37 CFR 1.125).

A substitute specification listing the aforementioned SEQ. ID. numbers (excluding the claims) is required pursuant to 37 CFR 1.125(a) because of the number of changes required.

A substitute specification must not contain new matter. The substitute specification must be submitted with markings showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) and a statement that the substitute specification contains no new matter must also be supplied. Numbering the paragraphs of the specification of record is not considered a change that must be shown.

4. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 1644
